**Gamatronic Technical Seminar  
March 16-19**

On March 16-19, 2010, the Gamatronic Technical Seminar will take place. This will be the first seminar dedicated to teaching the functionality and benefits of Mega Power+ . This four day seminar will cover information on Mega Power+ and Power+ products. The seminar is intended for technical specialists

**Mobile World Congress 2010**

For those attending the upcoming Mobile World Congress 2010, we invite you to come meet us in Hall # 4 , Level 1 on GSMA Mobile World Congress. Held in Barcelona, Spain, the Mobile World Congress 2010 will be the main global event for telecom companies this year. Gamatronic will use this event as an opportunity to present to the market our ultra-high efficient system PS 1UDC, noted for its ability to save energy & keep the environment green.

**Mega Power+ - US design patent**

Gamatronic announces that Mega has been awarded a US patent for its unique mechanical design. Following is a link to the patent:

**JILIN PROVINCE RURAL CREDIT UNION - CHINA**

Jilin Province Rural Credit Union is responsible for implementing national monetary policies in China. In order to ensure stable and safe operation of their Credit Information System, Jilin Province Rural Credit Union purchased Gamatronic's Power+ UPSs of 60kVA. The customer was surprised with the compact design feature of Power+ and noted that with the hot swappable functionality, Jilin can maintain the UPS online.

**STRATOS GLOBAL CORPORTION – Canada**

Stratos Global Corporation is a publicly traded company and a leading international telecommunications services provider. Gamatronic was in competition with a well-known worldwide competitor who had offered Two Parallel Stand alone UPS 160KVA systems in N+1 configuration. Our solution, 3 x Power+ RM 80KVA in parallel, offered the added value option for future expansion and as a result Gamatronic was chosen to supply the UPS systems.

### **PANTI COMPUTERS CHOOSES GAMATRONIC**

Patni Computers Ltd. is one of the leading global software services and business solution companies, with headquarters in India. Patni made a strategic decision, choosing Gamatronic products to back up their Mexico offices. Their decision was based on the definitive technical advantages that Power+ offers, including high efficiency, low harmonics, modularity, redundancy and its green-power specifications.

Modular Power+ systems will be installed by Gamatronic's distributor and service provider in Mexico. Pictures of the installation will be included in the next Gama News edition.
